No more peaceful rallies like this one. We watched all summer as terrorists tore our country apart, now it's time we are heard. They are not stealing our country from US. (thelibertybulletin.com)

74 What good are we if we are not armed and limit ourselves to being peaceful? The politicians have no reason to fear us. We have gotten to this point because politicians know there are no consequences for their actions because we don't do a damn thing. We haven't for decades. It stops now. It stops on January 6th. My only concern is whether or not enough Patriots runderstand what is necessary.

4 Yes they have pushed the patriots to the brink. But like GEOTUS we must continue to RESPECT t .
I'm not saying ALWAYS COMPLY with the law. I'm saying KNOW the law, KNOW when the law or its implementation conflicts with the Constitution and ALWAYS KNOW you have the ABSOLUTE RIGHT to

The law is: Theft from the U.S. Treasury by politicians is punishable by hanging. It is a breach of trust by a person in a position of power. It is exactly the same as why pedophilia among priests, coaches and teachers, and particularly family members disgusts us so much.

Catch 22.

Since DC long ago shredded the Constitution and no one did a damn thing about it, if anyone shows up on DC armed, they will be rounded up and taken off the field... or shots will get fired before Congress puts on their BS show and the whole thing becomes about "armed terrorists assault DC with assault weapons with things that go up"... and Biden gets sworn in on the 20th.

If people don't show up prepared to act... Congress will put on a show and Biden gets sworn in on the 20th.

Option 3: Vast, vast numbers need to turn out. Tens of millions vast. Enough to overwhelm all resources and the entire city, with or without weapons. The "powers that be" see that, short of Trump invoking the Insurrection Act in response to people who turned out to support him and the Constitution, the only real option is to "give people room" and work toward a peaceful outcome.

So far, it doesn't look like turnout will be anywhere near high enough for Option 3.

I hope that I am wrong.

It wouldn't take tens of millions. A few hundred AntiFa caused havok, though admittedly the city favored them. I think of a million ungovernable a showed up, the city would have to capitulate.

Yeah people underestimate how few people can topple a government. Egypt fell with numbers in the tens of thousands. If we have a million, which are good odds. That's more than enough.

NOT TO MENTION, each 1 of us Patriots is worth around 10 Antifa and BLM fags in terms of potential.

Antifa/ BLM are completely inconsequential and irrelevant. Anyone who is even thinking about them beyond being a minor annoyance is not thinking about this seriously or clearly.

The city of DC has about 3,800 police officers. Each of them is better equipped than 50% or more of us. That's a drop in the bucket. Add the capital police, FBI, ATF, all the other non law enforcement alphabet agencies who, never the less, have very well equipped law enforcement of their own. Then add that every structure in DC is an over the top, hardened target that mak 

Surrounding that is VA and MD and all the resources of this two states. We talking about couple

Anyone who is expecting a single one of these people to step aside is an idiot. As far as they and anyone who orders them around is concerned, they are upholding the law. As far as they are concerned, more than 50% of the country is on their side and more than half of the remainder may not agree with half of government, but they also do not support a violent insurrection to overthrow it.

Again, BLM/ Antifa aren't even worth mentioning. You want to beat up

7 ▼ The D.C. police would never THINK about shooting the blm or antifa. I doubt they'd have any qualms about shooting YOU, however. See how this works? If you're a D.C. cop, no matter when you hired in, you hired in under a white hating, America hating, Democrat mayor, Democrat police chief, and Democrat H.R. people.

So, just who do you think made it through the screening process to become a D.C. cop?

1 ▼ He is right - and none of it should matter. If the oath breakers decide to break their oaths - they will feel the consequences- the time for peaceful demonstrations is over. The government does our bidding or we hang them - there is no other way around it.

3 ▼ Perhaps. Havoc doesn't get very far though. Look at Antifa. What did they really accomplish?

We need to upend several generations of government which has festered into a vast, corrupt organization that dwarfs any dozen private entities on earth. A day of riots doesn't get us very far. It will need to be much, much bigger over a very extended period.

That said, hopefully this is a start.

6 ▼ antifa got SCOTUS to reject the TX case

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#)

▲ [Damiano](#) 1 months ago +1 / -2

-1 ▼ Unfortunately this is Twitter nonsense.

Go read what the TX AG himself had to say about the case's chances when he submitted before

hears 1 out of 100 cases. Several very conservative, very Constitution supporting AGs and others declined to join the case because, if it succeeded, would open the door to vast erosion of states rights (ex. Should CA get to sue ID because it CA thinks that ID should count ballots from "undocumented" voters?) and other Constitutional issues. Even people who fully supported the case acknowledged this, including the TX AG.

There were a lot of very good, very Constitutional reasons for the case to get tossed that don't touch the core issues about election fraud at all.

It's the equivalent of your doctor saying, "You have prostate cancer. The best course of treatment is cyanide. Here's a nice, big red Solo cup. Drink up."

Personally, I though it was good case and hoped it would succeed, cyanide and all. Some might disagree. Pretending that BLM had anything to do with it and it all came down to someone having pictures of Roberts with little boys is stupidity.

-1 Ah yes. The "screaming through the walls" stupidity. Despite the facts that the building was closed, no Justices or clerks have been present in or outside and rooms at any time anywhere close to when this supposedly happened and the "overheard" screaming talks about "junior justices", which do not exist (there are associate justices and a Chief Justice and none have any difference in authority of any kind).

This asinine article has been discredited countless times, but people here and elsewhere. That shouldn't even have been necessary, since any person with any reasonable intelligence would note that it is absurd and only shows up from thoroughly discredited sources.

But yeah... I am the moron.

Fucking idiot. Go read something besides Twitter, learn something, and try to learn to think before you start calling people morons.

13 ▼ It could be a weaponless, pacifist rally and they can still send in CIA or FBI agents with guns to false flag the whole thing. It's still better being armed and angry, because at least something can actually be accomplished. The politicians chose fear as their only motivator to do what's right, not the pedes going there to protest.

2 ▼ Agreed.

I don't think nearly enough people have really wrapped their head around what dealing with this really entails.

Worse, I think fewer people comprehend the consequences of not dealing with this.

Too many people think this is about posting crap on Twitter, waving some flags around, then everyone can go back to normal life on Monday morning and just keep going to work, saving for their white picket fence, and raising their 2.5 gender neutral children.
